Hi,

Out of the OPPT General today, Alex asked for an overall summary on our asbestos approach in preparation for the Section 21 OS next Wednesday. Part of this summary will explain our alternative approach to this petition from the previous. It should also include our SNUR and RE scope. Tala thought a vin diagram would be useful. Let's brainstorm on content and delivery method and this meeting and try to meet briefly again on Monday for a deliverable by COB on Monday. Each of you were identified as the lead for the asbestos actions in the hopper.

Tyler – Section 21s
Lea- Asbestos SNUR
OGC support- Steve
Gino- Asbestos RE

Thanks,
